PROJECTS

Online Exam Registration

📅 03/2021

- The distribution of registration forms to all students is accomplished through the use of the Exam Registration system. This method employs a thorough strategy to reduce manual work and effectively allocate resources and time. Using MySQL and Java.

Kanban Board

📅 07/2021

- Kanban follows this principle by allowing peers to focus on a single project at a time rather than splitting their attention across several tasks. The Kanban board is the strategy's essential building piece. ReactJS and NodeJS are used.

Travel Agency

📅 09/2021

- Had a thorough understanding of landing pages and how they were utilised. ReactJS was used.

Covid-19 Landing Page

📅 09/2021

- Designed a responsive, completely adjustable website. Colors, fonts, header and footer, layout, other design elements, text, and photos can all be changed. ReactJS was used.
